

**DEPARTMENT OF THE ARMY
U.S. Army Corps of Engineers
Washington, DC 20314-1000**

EM 1110-1-1906

CECW-EG

Manual
No. 1110-1-1906

30 September 1996

**Engineering and Design
SOIL SAMPLING**

Table of Contents

Subject	Paragraph	Page	Subject	Paragraph	Page
Chapter 1					
Introduction			Drilling and Sampling Problems . . .	4-5	4-6
Purpose	1-1	1-1	Limitations and Precautions	4-6	4-10
Applicability	1-2	1-1	Good Drilling Practices	4-7	4-11
References	1-3	1-1			
Rescission	1-4	1-1	Chapter 5		
Background	1-5	1-1	Equipment for Undisturbed Soil		
Organization and Scope	1-6	1-1	Sampling In Borings		
			Sampler Types	5-1	5-1
			Sample Tubes	5-2	5-9
Chapter 2					
Sampling Requirements			Chapter 6		
Introduction	2-1	2-1	Procedures for Undisturbed Soil		
Sample Quality	2-2	2-1	Sampling In Borings		
Parameters Which Affect Sample			Advancing the Borehole	6-1	6-1
Disturbance	2-3	2-2	Stabilizing the Borehole	6-2	6-3
Selection of Sampling Apparatus			Cleaning the Hole Before		
to Obtain Undisturbed Samples . . .	2-4	2-4	Sampling	6-3	6-3
Borehole Layout, Depth and Interval			Sampling Procedures	6-4	6-4
of Sampling, and Sample			Preservation of Samples	6-5	6-9
Diameter	2-5	2-7	Boring and Sampling Records	6-6	6-10
			Shipment of Samples	6-7	6-11
Chapter 3					
Drill Rigs and Appurtenant			Chapter 7		
Equipment			Equipment for Disturbed Soil		
Introduction	3-1	3-1	Sampling In Borings		
Drill Rigs	3-2	3-1	Sampler Type	7-1	7-1
Types of Drills	3-3	3-4	Augers	7-2	7-1
Accessories and Appurtenant			Push or Drive Samplers	7-3	7-2
Equipment	3-4	3-8	Displacement Samplers	7-4	7-3
			Vibratory Samplers	7-5	7-3
Chapter 4			Percussion Samplers	7-6	7-3
Drilling Fluids					
Purpose of Drilling Fluids	4-1	4-1	Chapter 8		
Types of Drilling Fluids	4-2	4-1	Procedures for Disturbed Soil		
Properties of Water-Based Muds	4-3	4-4	Sampling In Borings		
Mixing and Handling	4-4	4-6	Advancing the Borehole	8-1	8-1

Subject	Paragraph	Page
Sampling Procedures	8-2	8-3
Boring and Sampling Records	8-3	8-4
Preservation and Shipment of Samples	8-4	8-4

Chapter 9

Sampling Frozen Soils

Introduction	9-1	9-1
Drilling Equipment	9-2	9-1
Drilling and Sampling in Frozen Soil and Ice	9-3	9-6
Special Considerations	9-4	9-7

Chapter 10

Underwater Sampling of Soils

Introduction	10-1	10-1
Underwater Sediment Types	10-2	10-1
Planning an Underwater Site Investigation	10-3	10-1
Work Platforms for Underwater Sampling	10-4	10-2
Underwater Samplers	10-5	10-3
Special Considerations for Underwater Sampling	10-6	10-9
Sample Handling and Storage	10-7	10-11
Summary	10-8	10-11

Chapter 11

Sampling from Test Pits, Trenches, Accessible Borings, or Tunnels

Introduction	11-1	11-1
Excavation	11-2	11-1
Sampling and Testing	11-3	11-3
Preservation of Samples and Test Records	11-4	11-5
General Safety Considerations	11-5	11-5

Chapter 12

Sampling from Stockpiles and Bins, Transportation Units, or Conveyor Belts

Introduction	12-1	12-1
Sampling Plan	12-2	12-1

Subject	Paragraph	Page
Sampling Procedures	12-3	12-3
Required Volume of Samples	12-4	12-4
Preservation of Samples and Test Records	12-5	12-4
Precautions	12-6	12-5

Chapter 13

Handling and Storage of Samples and Sampling Records

Introduction	13-1	13-1
Handling and Storage	13-2	13-1
Written Record	13-3	13-6
Precautions	13-4	13-7

Chapter 14

Backfilling Boreholes and Excavations

General Safety Precautions	14-1	14-1
Grouting	14-2	14-1
Concrete	14-3	14-1

Appendix A

References and Bibliography

Appendix B

Penetration Resistance Test and Sampling with a Split-Barrel Sampler

Appendix C

Penetration Resistance Testing with the Becker Hammer Drill

Appendix D

Artificial Ground Freezing for Undisturbed Sampling of Cohesionless Soils

Appendix E

Visual Identification of Soil Samples
